

PRODUCT

| | |
|-----------------|---|
| Description: | Tierrafino Soap is a natural olive oil soap. |
| Composition: | Olive oil and potassium hydroxide. |
| Packaging: | 500 gram container, 5 l bucket. |
| Consumption: | For the application of Tierrafino Stone Tadelakt, 500 grams of Soap is sufficient for approx. 25 m ² . |
| Storage advice: | Store dry and cool but free of frost. |
| Workability: | At room temperature, Soap can be kept for 3 years, in the refrigerator it can be kept indefinitely. |

AREA OF APPLICATION

Soap is used with the application and maintenance of Tierrafino Stone Tadelakt. Soap can also be used to protect and nurture other materials like concrete, Terazzo and wood.

PROPERTIES

- Ready to use
- Specific olive oil soap odour
- Greasy substance
- Ochre/brown in color when wet and transparent after drying

APPLICATION

| | |
|----------------|---|
| Circumstances: | The air- and substrate temperature must be at least 5°C. |
| Mixing: | For the maintenance of Tadelakt, mix 1 part Soap with 25 parts water. |
| Application: | For the maintenance of Tierrafino Stone Tadelakt, apply a mixture of Soap and water with a brush, sponge or a spray to the surface. Let the mixture be absorbed by the Tadelakt for at least 10 minutes, then wipe the surface dry with hands or with a soft cloth. Do not let Soap dry by itself, it may leave white marks. Clean the spray with luke warm water to avoid blockage. To protect other materials, the description above can be followed. |
| Thinner: | Water. |
| Safety advice: | Avoid contact with eyes and mucous membranes. With induced risk (ceilings) wear safety goggles. For further information consult the Soap Material Safety Data Sheet. |

TOOLS

Bucket, stirring stick, brush, sponge or spray, soft cloth.
